*Realistic upside assumes filling one third of your open nights at your current rate — a conservative scenario, not a promise; open nights may include dates you have deliberately blocked. How we scored: everything above comes from your live public listing — the 3-month availability calendar, photo set, title, description and review signals, captured on the date on the cover. Scores weight what guests see first when deciding to click: title and cover photo, then photos, then copy. No third-party estimates are used. Demand signal reflects how much of your next 90 days is already booked — steady bookings mean demand exists and presentation, not location, is the constraint. Where the diagnosis cites your review count, that's the listing's own public review total at capture (a new listing starts at zero even when the host profile has reviews).

What's holding you back

- 1** Boost occupancy by 17.4% to 82.6% (current occupancy is 4.2% below cohort median), potentially adding £311.7 to annual revenue (based on 31 open nights)
- 2** Add or highlight the outdoor spaces, including the garden and any private seating areas
- 3** Highlight 'Quorum' in the title to capitalize on the local business park's reputation and potentially attract more corporate guests
