\*Realistic upside assumes filling one third of your open nights at your current rate — a conservative scenario, not a promise; open nights may include dates you have deliberately blocked. How we scored: everything above comes from your live public listing — the 3-month availability calendar, photo set, title, description and review signals, captured on the date on the cover. Scores weight what guests see first when deciding to click: title and cover photo, then photos, then copy. No third-party estimates are used. Demand signal reflects how much of your next 90 days is already booked — steady bookings mean demand exists and presentation, not location, is the constraint. Where the diagnosis cites your review count, that's the listing's own public review total at capture (a new listing starts at zero even when the host profile has reviews).

## What's holding you back

- 1 Title exceeds optimal length and doesn't leverage market-prioritize outdoor (50% of top listings include outdoor space)
- 2 Nightly rate £37% below median but occupancy only 8.7% higher (56.5% vs 47.8%) shows pricing leverage exists
- 3 Description lacks explicit mention of high-value amenities (parking, gym) that 82% of Leeds listings advertise

## Your description, rewritten

Stay in this fully private high-rise apartment just 2 minutes' walk from Leeds Central Station. The open-plan living area offers modern comforts for up to 4 guests, including free on-site parking (limited availability). While the building provides access to a well-equipped gym, we recommend bringing yoga mats as these aren't currently available.

The apartment's location puts you within walking distance of Leeds' top attractions, while the high floor ensures privacy and city views. Our rate of £98 per night is especially competitive for guests needing direct train access to London and Manchester. While you'll find full bedding for 4 guests, please note outdoor space is limited to balcony access.

We're always available via phone to help make your stay comfortable.

## Amenity gaps guests filter for

- Outdoor space (balcony)
- Secure parking (limited)
- High-speed WiFi (confirm details)

## Cover photo strategy

The cover photo should be the living area to showcase space and natural light, followed by the bedroom and gym access. A clear shot of the building's location relative to Leeds Station would strengthen positioning.
