*Realistic upside assumes filling one third of your open nights at your current rate — a conservative scenario, not a promise; open nights may include dates you have deliberately blocked. How we scored: everything above comes from your live public listing — the 3-month availability calendar, photo set, title, description and review signals, captured on the date on the cover. Scores weight what guests see first when deciding to click: title and cover photo, then photos, then copy. No third-party estimates are used. Demand signal reflects how much of your next 90 days is already booked — steady bookings mean demand exists and presentation, not location, is the constraint. Where the diagnosis cites your review count, that's the listing's own public review total at capture (a new listing starts at zero even when the host profile has reviews).

What's holding you back

- 1** Title is 64 characters (exceeds optimal 50-char limit) and lacks SEO keywords like 'near Wigan train station' or 'garden view'
- 2** No amenity information provided despite missing 3 high-value categories (Outdoor, Parking, Entertainment) that 87% of local competitors explicitly mention
- 3** Description contains only 17 words vs market-leading listings at 248 words which include neighborhood highlights and local attractions
