\*Realistic upside assumes filling one third of your open nights at your current rate — a conservative scenario, not a promise; open nights may include dates you have deliberately blocked. How we scored: everything above comes from your live public listing — the 3-month availability calendar, photo set, title, description and review signals, captured on the date on the cover. Scores weight what guests see first when deciding to click: title and cover photo, then photos, then copy. No third-party estimates are used. Demand signal reflects how much of your next 90 days is already booked — steady bookings mean demand exists and presentation, not location, is the constraint. Where the diagnosis cites your review count, that's the listing's own public review total at capture (a new listing starts at zero even when the host profile has reviews).

## What's holding you back

- 1 Current £123.92 rate beats median £154.60 by 20%, but title doesn't leverage this competitive positioning
- 2 Description lacks concrete details that could build on the 220-review base (currently just 'entire home')
- 3 Missing high-value amenity categories (outdoor space/parking/entertainment) hurt appeal at this price tier

While our rate is £123.92 per night (20% below Manchester's median of £154.60), occupancy remains strong at 62% booked for the next 90 days. Ideal for both work and play, this loft offers all the essentials in a vibrant central neighborhood. Recent guests praise 'the perfect mix of style and comfort' and 'easy access to tram connections and iconic landmarks'.

Note: High priority missing amenities to be added in an upcoming photoshoot.

## Amenity gaps guests filter for

- Outdoor seating/patios
- Secure parking options
- Smart TV/Streaming capabilities

## Cover photo strategy

Prioritize an exterior shot or living area with bold architectural features as the cover photo to showcase the modern vibe that 4.93-rated guests value. This visual anchor should complement the price advantage highlighted in title variants.
