WHY IT'S SITTING EMPTY

- Upgrade the title - the current 27-character title lacks high-value keywords; adding 'dog-friendly' and 'valley views' can boost clicks, especially with a nightly rate of £133.8 (+28% vs the £104.90 median).
- Rewrite the description to foreground the cottage's outdoor amenities and location while moving the low-ceiling warning to house rules; the present 0-review listing's description scores only 3/10 and may deter potential guests.
- Set the cover photo to the exterior valley view and add a dedicated dog-friendly space image; with 55 photos you have coverage, but the lead image currently isn't specified, limiting visual impact.

Cover photo strategy (from the full report):

Use a striking exterior shot that captures the valley and garden view as the cover photo - it instantly highlights the cottage's biggest visual asset and appeals to outdoor-seeking travelers.
